The Arctic Action is a heat pump for spas especially conceived for the most extreme climate.

Operating down to -20°C, you can heat up your spa right in the middle of snow peaks and enjoy the view in complete peace.

Its Full Inverter technology **will reduce your energy consumption up to 80% for an average COP of 5**, at an equivalent power consumption compared to an electric heater! Easy to install, the Arctic Action is compatible with all hot tubs and connects itself as easily.

Ideal for spas, swim spas and nordic baths, this heat pump will meet your expectations.
